Summary

Full Stack Developer with 3 years of experience in developing and optimizing websites using Next.js, React.js, and Node.js. Demonstrated success in improving website performance, user engagement, and lead generation. Experienced in frontend and backend development, SEO strategies, and scalable architecture design.

Professional Experience:

Wiingy, Full Stack SDE-1 *Bengaluru, Karnataka, India · On-site*   *2023 - Present*

- Engineered the main company website using Next.js, achieving 2x performance and significant SEO gains.
- Increased daily user count from 30 to 10,000, impressions from 20K to 1M per day, and revenue from 60K to 900K per month.
- Enhanced user experience, boosting session duration and lead generation from 10 to 100 leads per month.

Full Stack Software Developer Intern *Bengaluru, Karnataka, India · On-site*   *2022 - 2023*

- Rebuilt the company website from WordPress to React.js, reducing load time from 14s to 2.2s and achieving an average Lighthouse score of 85.
- Leveraged React code splitting, lazy loading, Redux, and persistent storage, improving website performance by 75% and enhancing user experience, leading to a 33% increase in user retention.
- Designed and implemented a lead capture form with a Node cron notification system, streamlining lead management and increasing lead response efficiency by 50%.

Associate, Frontend Developer *Hyderabad, Telangana, India · Remote*   *2021 - 2022*

- Specialized in frontend development to create T++, a platform for automated code generation, and Func-Search, a comprehensive tool for listing and submitting functions across various languages.
- Created multiple APIs and integrated OAuth 2.0 for SSO login with Google, GitHub, LinkedIn, and Facebook.

Val-U-Pro Consultancy Services, **Frontend Web Developer** *Illinois, United States · Remote*   *2019 - 2020*

- Developed responsive and visually appealing blog pages using HTML, CSS, JavaScript, and Bootstrap.
- Collaborated with designers to implement user-friendly interfaces, ensuring cross-browser compatibility and performance optimization.
